

Clarity Online Integration

A better way to reach your online market.

If you manually update your availability on the web, you have to understate it to prevent overbooking. We think there's a better way.

Increase your earnings and eliminate the cost of manually entering and updating bookings with our real-time online integration.

Benefits

- Gain extra bookings for free
- Always publish the right inventory
- Eliminate the chance of unintentional overbooking
- New Bookings entered automatically
- Eliminate manual handling costs
- Eliminate manual handling errors and omissions
- Free up staff time
- Easily publish rate changes and manage yield
- Publish to 1000's of Online Travel Agents and to GDS's of your choice

Features

- Integration to multiple Online Travel Agents means you can publish to your choice of 1000's of booking portals and to any Global Distribution System
- Automatically update Inventory as it changes without delay and reliance on manual management
- Publish Rates, Inventory, Packages, Promotions up to a year in advance
- Retain Allocations or Free Sell inventory
- Gives you the ability to change and publish Rates to achieve maximum yield
- "Last minute" pricing facility that lets you offer special rates for a room type, for a defined period
- All new Bookings imported automatically and update Clarity Hotel Manager simultaneously
